How to Use Liz-Out Spray

Liz-Out Suspension Spray is Natural product. It safely and organically kills and repels Lizard. Its all natural formula and leaves behind no harmful residue and has no harsh pesticide alike smell.

Application- Shake well before use. Read entire label for indoor/outdoor application. Use protectives before Spray treatment. Hold container upright and aim nozzle away from person. Press button repeatedly & firmly to spray. Spray with a slow, sweeping motion. For best results spray when air is calm and work backward to avoid drift. Fan, AC air blow, wind current shall be avoided at application. Spray areas where usually lizard occurs. To create an artificial barrier to hiding, breeding areas directly spray in the cracks, corners, crevices and other similar areas. Give special attention to the breeding areas such as idle furniture, wall portraits, calenders and wall mounted frames having empty hollow spaces behind. Control Insects as many as possible to break food chain. Allow a few minutes for product to take effect. To reduce annoyance from lizard treat hiding and breeding areas where these pests may alight or congregate in similar manner.

It Contents Natural Oils of Clove, Cinnamon, Cedar wood with Inert Clay media in water.

General Application information of Liz-Out Suspension Spray:

- 1. Make survey & identify the problematic areas of Lizards occurrence. We can stop entry in particular areas.
- 2. The liz proofing is done by creating an artificial barrier to protect areas of our food & habitat.
- 3. Break open Seal of bottle, Place the Nozzle on the bottle for spraying Liz-Out to create barrier continuously by Liz-Out Suspension Spray without leaving any gap.
- 4. This material is liquid suspension & is soluble in water so spray all places where Lizards can hide. At wall pieces, cracks, empty spaces in such a way that it will remain there as a residual material.
- 5. Spray Liz-Out at all the parking areas, windows and door sides to take care of either hiding or entering in home.
- 6. Apply spray at all the possible or hiding suspicious places while doing so you may find some insects, rats, frogs, small snakes rushing away from their places if hidden. Kindly note it repels them also.
- 7. In open wild jungle or animal shed, Horse stable, apply this directly as curative spot treatment or lizard directly .
- 8. Do not try to cover very big land jungle areas. Study the situation and apply at required places.

HOW TO USE:

- 1. Liz-Out Spray shall be sprayed across an areas where it is desired to prevent or discourage lizard from entering.
- 2. Preferably, the spraying shall be 10-30 cm wide, although generally the wider the spray effective the barrier.
- 3. In this manner, an odour barrier is provided that lizard are reluctant to cross.
- Additionally a smaller amount of product may be sprayed scattered in diffuse or non-continuous manner just beyond the strip, on the side away from the area to be protected.
- 5. This added Spraying scattering of repellent serves to lessen the probability of occasional lizard wandering beyond the strip.
- 6. After use dispose the container by deep burial in jungle areas; First try to understand Biological habitat of lizard later think of doing this as preventive measures for self-protection after application.

Frequently Asked Questions

QUE: Is this product spray work out to get out Lizards?

ANS: Yes. Indeed. Spray across area desired to create an artificial barrier prevent/discourage Lizards from entering. Spraying repellent lessen probable entry. If barrier line is broken, re-apply spray.

QUE: If once apply how long days it will be effective, how long days once have to change?

ANS: 180 days if undisturbed. It is reapplied anytime for repair if the barrier line is broken, it's soluble in water so get washed, still to ensure protection go for re-application.

QUE: How many days this powder will work on Farm House?

ANS: Once applied it works for min 90 to max 180 days if not washed, undisturbed, unbroken.

QUE: How to apply around my hut?

ANS: Use by direct spraying for making barrier to lizards or killing it.

QUE: Hi I want to get rid of Lizard from my farmhouse. Is this medicine proper for that

ANS: Yes Indeed it is useful & very effective if used as per instructions.

QUE: Is this product work in any season?

ANS: Yes, all seasons.In Summer, winter spray remains naturally & gives protection but re-apply if washed either in summer or monsoon

QUE: Frequency of spraying?

ANS: Spraying Frequency 30 days once powerful application is done to make an artificial barrier line.

QUE: Does this product affect pets or humans?

ANS: No but It's irritant to harm Human & pet. It's safe once applied taking precautions while applying.

QUE: Can I use this product when i have other pets on my farm land? I have hens, tukeys, bunnies and birds. Is it poisonous when other animals consume it?

ANS: Yes. Use it at Liz prone areas of farm & in cages. It's not consumable, smells bad to animals.

QUE: Does it repels Lizards & snakes as well?

ANS: Yes It does.

MATERIAL SAFETY DATA SHEET

SECTION 1. PRODUCT AND COMPANY INFORMATION

Trade Name (as labeled): Liz-Out Spray (repels Snake, Lizards from & around home)

Manufactured By: Pestomatic Controls.

A 2/6 MIDC, Shrirampur

Dist- Ahmednagar 413709 MS India

Business Phone: +91-9225549186

Emergency Phone: +91-9422235816

Date of Preparation: 17 March 2010

SECTION 2. COMPOSITION AND INFORMATION ON INGREDIENTS

			Exposure Limits In Air	
Chemical Name	%	CAS#	ACGIH TVL (ppm)	OSHA PEL (ppm)
Cedar Oil	2.00%	68990-83-0	NA	NA
Cinnamon Oil	0.65%	8015-91-6	NA	NA
Clove Oil	0.35%	8000-34-8	NA	NA
Inert Clay	2.00%	80090-83-0	NA	NA
Water (Q.S.)	95.00%		NA	NA

NE = Not Established

NA = Not Available

Q.S. = Quantity Sufficient

SECTION 3. EMERGENCY/HAZARDS OVERVIEW

Emergency Overview: Cream to Brown colored, free flowing Liquid Suspension with a possible cinnamon/clove odor. Spray may cause mild irritation.

Symptoms Of Over Exposure:

Eyes: Spray may cause severe irritation with prolonged exposure.

Skin: Prolonged or repeated exposure may cause skin irritation.

Inhalation: Spray may cause breathing difficulties and irritation of mucous membranes.

Ingestion: Seek medical attention

Injection: Not possible

SECTION 4. FIRST-AID MEASURES

CECTION 4.1 INCT AID INLACTING			
If Inhaled:	Move to fresh air. If breathing becomes difficult, contact a medical physician. Give artificial respiration if victim is not breathing and obtain immediate medical attention.		
If Ingested:	Do not induce vomiting unless directed to do so by a medical professional. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. If vomiting occurs, keep head lower than hips to prevent introduction of fluid into the lungs.		
In Case Of Skin Contact:	Wash thoroughly with soap and water. Remove contaminated clothing and wash before reuse. Seek medical attention if skin becomes irritated.		
In Case Of Eye Contact:	Flush immediately with water for at least 15 minutes, lifting the upper and lower eyelids occasionally. Call a physician if eye irritation persists.

SECTION 5. FIRE-FIGHTING MEASURES

Flash Point: NA
LEL Flammable Limits: NA
UEL Flammable Limits: NA
Auto Ignition Temperature: NA

Extinguishing Media: Use any standard agent suitable for surrounding structural fire or for other chemicals that may be

involved. Fine water sprays and/or dry chemical agent.

Fire Extinguishing Media to Avoid: None known. Unusual Fire And Explosion Hazards: None known.

Special Firefighting Procedures: Wear positive pressure, self-contained breathing apparatus (SCBA) and goggles. Avoid

exposure to smoke or fumes.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Spill And Leak Response: Pick up aqua spills by sponging, Put dust for shoveling, or suction vacuuming and place into

containers for reuse or disposal.

SECTION 7. STORAGE AND HANDLING

Storage Practices: Store in a cool, dry, well-ventilated area away from incompatible materials. Store only in original

container

<u>Handling Practices:</u> Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Wash with soap and

water after handling.

Hygiene Practices: Avoid getting product ON YOU or IN YOU. Wash hands with soap and water after handling.

Do not eat or drink around or while handling. Keep out of reach of children.

SECTION 8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

<u>Ventilation/Engineering Controls:</u> Product to be used outdoors only, do not indoors

Respiratory Protection: For normal product handling, use any NIOSH approved air-purifying dust respirator.

Eye Protection: Chemical dust/splash goggles or some type of eye protection.

As a general rule, contact lenses should not be worn when working with chemicals because they

contribute to the severity of an eye injury.

Hand Protection: Wear cotton or canvas protective glove to prevent contact. Rubber gloves may be used also.

Body Protection: Use body protection appropriate for task.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

<u>Appearance:</u> Cream to Brown Colored <u>Boiling Point:</u> 100 °C

Odor:
pH:
6-8Crystallization Point:
Freezing Point:
Vapor Pressure:NA.Solubility:
NA.Vapor Pressure:
NA.

Water Solubility:Soluble.Vapor Pressure:NA.Density:1gm/mlVapor Density (air = 1):0.

Specific Gravity ($H_2O = 1$): NA. NA = Not Available.

SECTION 10. STABILITY AND REACTIVITY

Stability: Stable. Conditions To Avoid: Fire.

Incompatibility: Alkaline materials, or mixtures oxidizing agents.

<u>Hazardous Polymerization:</u> Will not occur.

SECTION 11. TOXICOLOGICAL INFORMATION

Toxicity Data: NA. Acute Effects:

Eyes: Mild irritant. May cause redness, tearing and/or burning.

Skin: Mild irritant, especially with prolonged exposure.

Ingestion: Non-toxic.

Inhalation: Moderate irritation of nose and throat from spray. May cause dry coughing, wheezing, chest tightness, and burning of mucous

membranes.

Chronic Effects: None known.

Liz-Out Spray: How to Use! SOP (Standard Operating Procedures)

01.05.19

Back ground Before Application of Liz-Out Suspension Spray try to know biology & habitat of reptiles, then use Liz-Out Suspension Spray as preventive measures. The product is designed repel & eradicate lizards from Human habitat, Urban-life, Hotels, Food-factories, Farm houses/sheds of livestock, Horses. Lizards is predator feeding on Insect/Pest as much as a normal and quiet organism. Behavior of Lizard is to move slowly in a deliberate and investigatory manner.

In our experiments we have seen Lizard's responses to the repellent in as near to natural-normal conditions as possible, so we recommend to apply Liz-Out Suspension Spray by spraying across an area where it is desired to prevent or discourage lizards from entering. Preferably, the Spraying should be done in a strip 10-30 centimeters wide, although generally the wider the strip the better. In this manner, an odour & contact barrier of Liz-Out Spray is provided to which Lizards are reluctant to cross. Additionally, a smaller amount of the spray may be done as scattered in diffuse or non-continuous manner just beyond the spray strip, on the side away from the area to be protected. This added scattering of the repellent serves to lessen the probability of occasional lizards wandering beyond the strip. If Spray barrier line is washed /broken, Liz-Out Spray shall be re-applied on to repair the barrier, but protected from heavy rainfall. After washing, cleaning or rainfall re-application shall be done. Liz-Out Suspension Spray is soluble in water so doesn't remains there in the same places still to ensure protection reapplication is recommended. In experiment Lizards exhibited even overt avoidance of the repellent, and if sometimes some lizards try to cross the repellent. These lizards exhibited avoidance behavior first, eventually moving across the repellent strip while rubbing the head against the ground, seemingly attempting to escape from the repellent spray- strip. Repelled lizard show no hesitation to leave the place. Every time start treatment at interior sections working outward. Leave Lizard evacuation route open (1 side) to flush out resident lizards that may be present, close open area off this untreated area within 5 days. Create complete perimeter around areas to be protected after 5 days (Not to be used by persons with perfume allergies). Keep away from children.

DIRECTIONS: Liz-Out Spray is a liquid aromatic suspension available in pet bottle with attachable nozzle. The bottle content is 200 ML. The person spraying the Liz-Out Spray shall wear protective before start. The minimum requirement is Boiler suit, Gum boot, rubber gloves, full goggle, nose mask or full face mask with canister and or helmet as per the need of the situations.

INGREDIENTS:

Proprietary Blend of natural essential oils of Clove, Cedar, Cinnamon as active ingredients, Inert Clay . (See MSDS for all ingredient details.)

- 1. Break open the bottle seal,mount the spray nozzle tighten it. Switch off fan, door, windows to keep air flow in control.Start spraying areas of occurrence of lizards to kill, repel lizard as curative spot treatment. Scattered spray shall also done to discourage the lizard.
- 2. Spray Liz-Out in infested areas to form an artificial barrier line continuously without leaving any gap in strip of 10-30 cm.
- 3. At mounted wall piece, posture, photo-frame, electrical fixtures, bulbs, tubes in such a way that it will remain there for longer time as a residual material. Due care shall be taken while spraying at electric equipments
- 4. Place the Liz-Out Spray at all the parking areas, windows and door sides to take care of either lizard hiding, breeding or entering places in home and premises.

5. Apply at all the possible or hiding suspicious places while doing so you may find some insects, frogs, Rat, small snakes rushing away getting repelled if hiding inside. Please, note Liz-Out Spray repels several organism but does not harm to Human, animals, insects, frogs, pet & even birds.

Note: Do not disturb Natural food chain, natural habitat, Lizards & Snakes are friends. They are most important part of food chain. The natural predator-parasite food cycle shall be kept normal at maximum possible ways. In exceptional case apply this in only for artificial barrier if very necessary in human areas, later it shall be broken if not required. Do not attempt to cover very big land, entire jungle, forest areas use for Home, Hotel, Hospital & Food industry.

Disposal: The empty container & remaining, after use shall be disposed by deep burial in barren land safely. Storage: Store below 30°C Temperature in cool dry place away from children. Made in the India.
